Story

Regarded as the fundamental of life since the early days of humanity, the soil maintains its existence by developing and transforming into various shapes. Taking design, technology and functionality together for half a century with the power it gets from this soil, Ege Seramik, continues its journey with the motto of *"Perfect Nature, Perfect Beauty"* and with a world class environmental friendly production and service approach.

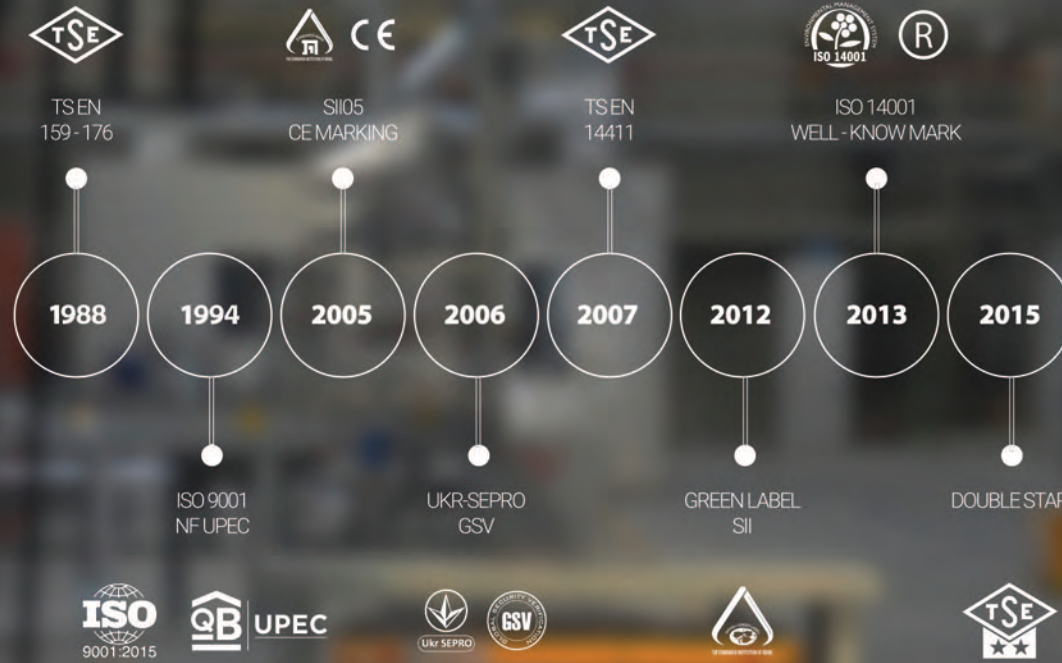

Ege Seramik is expanding its sales network everyday with the steps it has taken in line with its goal of becoming a stable *"Glocal"* player. Ege Seramik has maintained its innovative and dynamic structure since the day it was founded. Ege Seramik embraces the mission of being a company which does not follow the trends but creates them and this is reflected in its logo with the idea of always offering innovation and creativity.

Ege Seramik performs many firsts in terms of production, sales and marketing activities in the tile industry and it believes that high quality and customer satisfaction are indispensable for its success. The innovative product portfolio enhanced by unique design capabilities and high-tech materials responds to the demands of all international markets.

Ege Seramik is the first company that has environmental friendly production facilities with high recycling rates and runs its production, logistic and sales processes with high environmental awareness from the beginning till the end.

Ege Seramik, an İbrahim Polat Holding subsidiary, has been successfully representing the Turkish ceramic tile industry both in Turkey and abroad for half a century since its foundation. With its steady performance, expert staff and ambition for further growth, Ege Seramik has been leading the fashion in the tile industry for half a century.

KITCHEN CHICNESS

The emergence of beauty hidden in the details

Ege Seramik which dominates the market with its wide and innovative pre-cut mosaic product portfolio continues to change the ambiance in the bathrooms and kitchens with its continuously developed product range.

Pre-cut mosaics which are far easier to apply compared to the conventional mosaics add a dynamic and rich visual features to your spaces. Ege Seramik which has expanded its portfolio with its interlocking mosaic-like products is the indispensable preference of those seeking mosaic's elegance in their kitchens and bathrooms.

POWER OF PORCELAIN TILES

Explore the effects of different patterns and surfaces with a strong approach.

Ege Seramik's glazed porcelain products which combine the esthetic and the advantages of glazed porcelain by blending them with one another are the most suitable covering material for intensively-used areas.

This stainless product group was designed for surfaces that are subject to abrasive materials and have a heavy traffic such as shopping malls, hotels, hospitals, and etc.

In addition to rich size and color options, opaque, bright, lappato and rectification processes can be applied on these products that are also environment-friendly.

Allow the reflection of perfect beauty to your living spaces with it's full polished surfaces.

ELEGANCE OF WOOD

A magical balance between naturality&durability

The wood-look series of Ege Seramik that add a natural beauty to the places where they are applied are now available for all your living spaces.

The ceramics that combine the look of wood and glazed porcelain material with a decorative understanding conform to various styles such as minimalist, modern and vintage

The wood-look series which are offered with a variety of sizes and color options in Ege Seramik's portfolio can be easily used in indoor as well as outdoor spaces!

Having a natural look that envies the nature itself and warm and equally durable.

MULTI-DIMENSIONAL COMFORT

A realistic touch of the third dimension to your life

Ege Seramik carries its 3D products having the look of a natural stone and special patterns which is designed with inspiration from the nature with the whole generosity of the nature. 3D products which manage to have the closest natural look thanks to the high-quality digital printing technology and surface structures with deep-relieves are the key to creating original places both indoors and outdoors.

These products which are preferred particularly in gardens, terraces, pools, exterior walls are active, dynamic and as real and durable as nature in every season.

Upgrade the energy of your living spaces with magnificent harmony

Ege Seramik stirs nostalgia wind with its new products having vintage-concept.

The vintage series' developed in the size of 20x20 cm, with unique design and various color alternatives will change the mood in your living spaces. These products can be used in all internal and external spaces thanks to their glazed porcelain structure.

These series which can also be easily combined with the wood, marble and concrete concept products are new key to designing both nostalgic and different spaces.

According to the changes in the prints of pattern due to the design of our products, the color tone changes indicated on the labels of the boxes are made as follows. When it is opened 1 box from the product you purchased, changes in the patterns and views between the tiles found in the box are varied with respect to the design of the products.

UNIFORM APPEARANCE
TEK DUZE GORUNUM

V1 Uniform Appearance

Color and texture difference between the tiles from the same lot is very low which cannot be seen as a result of the nature of the material.

SLIGHT VARIATION
HAFIF FARKLILIK

V2 Slight Variation

There are clear differences in surface texture and printing patterns among the tiles having similar colors.

MODERATE VARIATION
ONEMLI FARKLILIK

V3 Moderate Variation

Main colors in one single tile can be found in other tiles. However color intensity shows differences between tiles. This is generally used in rustic tiles.

SUBSTANTIAL VARIATION
RASTGELE FARKLILIK

V4 Substantial Variation

Color differences can be observed from one tile to another. Thus, color of one tile can be different from another one. However, a harmony is observed between colors. These kinds of products can be found in the boxes in a random order. This is a design approach which is generally used in rustic tiles. Color and texture variation can be controlled in our facilities. This is a parameter and it is developed in the stage of product development as a requirement of market demands and design.

Application Techniques

Herringbone Laying

Staggered Laying (Max 15% - % 20)

*Staggered Laying (Max 50%)
Half Offset Laying Is Not Recommended*

Dust Pressed Ceramic Wall Tiles With High Water Absorption
